UC Berkley Extension

Certification of Completion Full Stack Web Development

Berkley, CA

April 2019 - December 2019

RELEVANT WORK EXPERIENCE

Geek Squad

Consultation Agent

Lake Geneva, WI

June 2017 - July 2018

- Troubleshooting multiple types of hardware or software issues for customers.
- Had to learn a plethora of new technologies on the job in order to tackle any problem someone may bring in.

SKILLS

| | |
|-------------|--|
| JavaScript: | Possesses a strong knowledge of the fundamentals of Javascript |
| HTML/CSS: | An understanding of the importance of responsive web design and user experience |
| React: | Able to use popular and up to date frameworks to create apps more efficiently |
| GitHub: | A strong understanding of using github to push or to pull code from an existing repository |

PROJECTS

Personal Portfolio Site

A personal portfolio site I created to host all my favorite projects.

<https://distracted-nobel-216377.netlify.app/>

Recipe Search App

A recipe search app using Edamam's free API. This website lets you search an ingredient and will output all the amazing recipes you can make with it.

<https://github.com/jebbwebb/recipe-search>

E-Commerce Website

An e-commerce website built using vanilla JS/HTML/CSS. This site has implemented a fully functional shopping cart.

<https://inspiring-raman-ffad0.netlify.app/#>

D&D Website

A current in progress project that I am working on with other developers. It will allow people to play D&D online instead of needing to meet in person
