Personal Projects

Portfolio Site
HTML/CSS/JS   *https://jebbwebb.github.io/portfoliosite/*

- Created a personal portfolio site so I can showcase all my favorite projects.

Recipe Search App   *https://github.com/jebbwebb/recipe-sea*
React   *rch*

- A recipe search app using Edamam's free API. This website lets you search for an ingredient and will output all the amazing recipes you can make with it.

E-Commerce Website   *https://inspiring-raman-fffad0.netlify.a*
HTML/CSS/JS   *pp/#*

- An e-commerce website built using vanilla JS/HTML/CSS. This site has implemented a fully functional shopping cart.

Planet Facts Site   *https://jebbwebb.github.io/planet-facts-site/t*
HTML/CSS/JS   *lify.app/#*

- A single page application built with JS and CSS. Toggles between different planets,images,information.
